### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the claims address a method (independent claim 1) or computer program (independent claim 19) for correcting a cone beam image of scatter by scanning an object both with and without a beam pass array, or an apparatus (independent claim 10) for CBVCT with a removably positioned beam pass array. This feature is neither shown nor fairly suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ning US 2004/0081273 A1 and US 6,618,466 B1 show conventional scatter correction using beam stop arrays.
